“ A few days before Ron passed, I wrote Brad a letter. Once again, I sit in front of my computer with tears in my eyes. This except from that letter, pretty much, sums it up:

"As a little kid, I did not have a grandfather. They both passed on before I was able to know them. I saw my best friend's grandfather doing stuff with him, helping him out and just being a pal. I felt something was left out of my life. I remember the day I said to myself, "I wish I had a grandfather." Since then, it seems God has placed older, wiser men in my life who have been good friends and role models to me. Your Dad is one of the only two who are left.

Ron is one of the most selfless, kind, and calm people that I have known in my whole life. He was always happy to help me, especially with my truck, or anyone else who asked. I have never in the 20 years that I lived next to him heard an angry word, and I certainly enjoyed his company when we had time to share. He has the qualities that I try to emulate."

Ron is closer to my father's age, and I never saw him as old or a grandfather. I just saw him as a neighbor and a friend. He will be remembered and missed.

My sincerest condolences to Brad, Shelly, Harley, and the rest of your family.

“ I'm so sorry for the family. Ron was someone I could always count on. At the RPSF I would frequently work on the booster pallets. They were usually sitting out in the field. We needed compressed air to work on them and there wasn't any in the field. He was one of my goto guys to get the pallet moved. He would always say "Give me a few minutes and I'll get a crew together and get that moved for you." He always came through for us and was happy to do it. RIP Ron.

“ I met Ronnie during the seventies when he went to work at Kennedy Space Center. I am proud to say that I was blessed to have worked with a true professional who was the most dedicated aerospace worker on the Center. Ronnie was the gold standard. He always had the best attitude and a smile that would win you right over. I never remember him having a bad day. I was a better person because of this special man. He was a leader who lead by example. We will all miss him terribly.

“ "Remembering Ron"

Dave worked with Ron at the Space Center for a number of years. I had the pleasure of meeting Ron when we bowled with him on a league. In later years we would meet him for lunch pretty often at Norman's. He was always kind and such a gentleman. And oh boy, did he love to go to yard sales. He was loved by many. Praying Peace to the family.
