“ I worked with Jim at the bartlesville water treatment plant, when it was by the Arutunoff softball fields and at the new plant out on Hudson lake road. Jim was quite the character, he was always doing something that would make us laugh. He worked at the water plant for many years and had some stories about things that had happened in the years past that were always entertaining. Some of the things would have gotten him into trouble i'm sure had they come to light back when they happened. One of the stories involved a motorbike being ridden up the stairs and into the halls and around the filters in the plant. Something i'm sure would have been frowned upon had it been found out. This never got jimmy in trouble but it was fun to watch, when jim was mowing on the riding mower he never could remember that the roll bar was on the back. so when he went under the tree that was out front the roll bar would hook on a limb that hung down a little low and before jimmy new what was happening the mower would be up on the two back wheels and he would be hung up and holding on for dear life. I will never forget the look that would be on his face,it would just crack you up.I have to admit that sometimes we would watch out the front windows just to see it happen, it never got old. I'm glad i got to share some of my life with Jim he was a good man. I'm sorry he passed away and i'll remember him as long as I live.

MS

“ Jim was always down to go on a road trip rather it was to the lake, Tulsa state fair, or to do something fraudulent. He would just sit back there and laugh at the messes I'd get into. He watched Reese and Corbyn when they were little they painted the bedroom carpet white one time and Reese got to go to the ER for first time under his care. I wouldn't change a thing. Rest in Peace Buddy
