“ RIP Larry. I remember the good times we had when we were kids. Skipping school together with Claude Bryant. Claude had a 1950 chevy and we put our lunch money together and went to the Tulsa State Fair. Not knowing it was televised until we got home, our parents let us know we skipped school. That same day we went to the radio station KAKC. That was the station that played rock n roll at that time. Later years, you and i became brother n laws. Whata co-incidence. God works in mysterious ways. Growing up in the same neighborhood (same block) we played together, went to the same school together and married sisters. Now are kids are cousins How is that for karma. RIP my friend my brother. Butch McMullen
