I was sad to hear of Bill's passing but know that he will be remembered by his family, friends and co-workers as a very loving, intelligent, and dedicated individual. I worked at Phillips starting in 1976 with Bill and watched him during the next ten years develop EOR reservoir simulation models on early computers with Fortran programming. His early work in simulation was very useful and leading edge at the time. He was a dedicated and intelligent employee and a great friend. Sorry I have not seen him for some time but hear of him often. My condolences to his fine family. Good luck and Hang Tough. . . .knowing Bill he'd want it that way. Z*
